

Mendezized Metals Corporation
Equity Securities Collateral Program

Our EQUITY SECURITIES (**Mendezized Gold Certificates of Deposit**) backed by our SUPER GOLD (Mendezized 99,9999999999 pure 24 Karats Commercial Gold Bars) can be used by any Major Corporation or by any Major Financial Institution (Banks) or by any Country of the world to Collateralize their own financial paper (Bank Notes or Currencies) or Financial Instruments (Government or Corporate Bonds) the same way our company did with DTC with our \$1,000,000,000.00 (One Billion Dollars) Corporate Bond Issue because Bonds and Notes are the same Securities Instruments and are known Worldwide as Debt Securities, Notes are for short term Debt and that's why they are used mainly in currencies and Bonds are for long term Debt such as Government Bonds.

We are not offering to sell our SUPER GOLD (Mendezized 99,9999999999 pure 24 Karats Commercial Gold Bars); we are offering to LEASE or SELL to Major Corporations, Major Financial Institutions and Governments our EQUITY SECURITIES (Mendezized Gold Certificates of Deposit) that are backed by our SUPER GOLD (Mendezized 99,9999999999 pure 24 Karats Commercial Gold Bars). In other words, our EQUITY SECURITIES (Mendezized Gold Certificates of Deposit) that are on DTC CUSTODY are like an INDIRECT EQUIVALENT of using the Old Gold Standard without been the Old Gold Standard because our SUPER GOLD (Mendezized 99,9999999999 pure 24 Karats Commercial Gold Bars) are first DEPOSITED with a Legal TRUSTEE and Deposited by the Legal TRUSTEE into a Major Financial Institution and INSURED for the full Monetary Value by the Major Financial Institution and the Legal TRUSTEE issues Mendezized Gold Certificates of Deposit which are converted via DTC into EQUITY SECURITIES and put into DTC Custody. Therefore, our EQUITY SECURITIES can be used to COLLATERIZE Third Parties Financial Instruments, i.e. Stocks, Bonds or to COLLATERIZE Worldwide Currencies BECAUSE they are SECURITIES. Please keep in mind that Gold has ALWAYS been a COMMODITY and NOT an EQUITY SECURITY; we had been able to legally convert our SUPER GOLD (Mendezized 99,9999999999 pure Gold 24 Karats Commercial Gold Bars) and our Mendezized Gold Certificates of Deposit into EQUITY SECURITIES which is not been done by anybody else that we are aware of with regular 99,99 pure 24 Karats Commercial Gold Bars.

If you are a major Corporation, Financial Institution or Government interested in LEASING or PURCHASING our EQUITY SECURITIES (Mendezized Gold Certificates of Deposit) as Collateral to Guarantee your own Corporate Bonds or Stocks, Government Bonds or Government Currency please contact us with your request.
